

ANNUAL
ADMINISTRATION REPORT
OF THE
DHOLPUR STATE

FOR THE
YEAR ENDING 30TH SEPTEMBER, 1913.

DHOLPUR,
PRINTED AT THE STATE PRESS.

1914.

MD: SHABEER HUSAIN.

Singh. Press.

The Annual Administration Report for 1913 covers the last year of administration of my State under the Superintendency of Captain G. H. Anderson I. A. to whom credit is chiefly due for carefully managing the finances of the State so as to show during the year, an increase of over half a Lakh in income and decrease of about 2 Lakhs in expenditure over the figures of the previous year.

Captain Anderson's administration of my State has been most successful in every way. I am anxious to place on record my sense of gratitude and high approbation for the untiring zeal and devotion displayed by him throughout his service in Dholpur State.

The new scheme of administration introduced only two months before the close of the year under review seems to be succeeding well and the officers selected to carry it on, have given satisfaction.

It is to be regretted that owing to the holding off of the rains during the year and the scarcity of fodder, the people are facing some distress in parts of the State. Endeavours are, however, being made to mitigate their suffering. Suspensions of revenue have been ordered where necessary and arrangement is being made for the supply of fodder.

The Ramsagar Irrigation works were opened during the year. They have been of immense help to the cultivators especially in this time of scarcity of rain.

Mr. R. E. Holland while Political Agent, Eastern Rajputana States, took the keenest interest in the affairs of the State and his valuable advice and ready assistance deserve my warmest thanks. The Hon'ble Sir Elliot Colvin the Agent to the Governor General in Rajputana, has been an old friend of my house and has invariably displayed a lively interest in the affairs of this State and evinced an anxious solicitude for my welfare. It is impossible for me to thank him adequately for the many acts of kindness done to me, my house and State.

16th February 1914.

UDAIBHAN SINGH,
Maharaj Rana.

It may be added that although this State bank does without a doubt serve a useful purpose in the State, there has been a tendency during the last few years to regard it merely as a profit making concern for a few leading Sardars and Officials instead of the charitable institution which His Highness Maharaj Rana Nihal Singh started for the help of poor persons in want and for tenants and Zimindars in need of funds at a low rate of interest. The tendency is being corrected but needs to be watched.

The following are the Karkhanas with expenditure shown against each as compared with the figures of the previous year:—

			1911-12.	1912-13.
1. Stable and Baggikhana	35344	45099.
2. Grass Dépôt	18430	12591.
3. Elephants	3803	3039.
4. Camels	2193	1924.

11. Khor Lawaris	159	181.
12. Gardens	18594	19350.
13. Head office	825	2812.
Total Rs			97374	106865.

The following are the reasons of increase and decrease in the expenditure of the Karkhanas.

Stables.—The increase is due to the purchase of horses. No horses were purchased last year. Expenditure in this Karkhana needs to be carefully controlled and His Highness has been asked to give the matter his attention. During the year a number of useless animals were auctioned and the total considerably reduced but with the advent of Motor cars and the expenditure involved in their running and upkeep, great effort should be made in the reduction of stable expenditure.

Elephants.—The decrease is due to the death of one elephant.

Rathkhana.—The increase is due to the purchase of bullocks for Rath.

Farashkhana.—The increase is due to the purchase of tents and their accessories and furniture as they were badly required.

Gardens.—The increase is due to the purchase of well-gear or articles for drawing water such as charsas etc. This still remains an expensive department in which expenditure requires more control.

Head office Karkhanajat.—The increase is due to $\frac{1}{3}$ pay of the Superintendent of Karkhanajat and his staff being charged. Last year the whole pay was charged to the Revenue Department.

74 Forests.—The total income of the Forest Department was Rs. 14,213 against Rs. 10,914 last year and the expenditure was Rs. 11,005 against Rs. 12,142 in the preceding year.

75 Charcoal.—The total receipts including the balance in stock at cost price amounted to Rs. 4,570 and the total expenditure to Rs. 4,251 showing Rs. 319 as balance and net earnings of the department.

76 Firewood.—The total receipts including the balance in stock at cost price and Abwab amounted to Rs. 7,116 whereas the expenditure to Rs. 6,138 showing Rs. 978 as balance and net earnings of the department.

The work of this department reflects credit on Sardar Umrao Singh. Much more, however, remains to be done.

77. Public Works.—Appendix XIII shows the expenditure on Public Works aggregating Rs. 1,79,207. Deducting Rs. 37,904 the cost of establishment and adding Rs. 36,981 cost of works executed for other departments, the percentage of establishment to works amounts to Rs. 21.26.

This would appear to be high but a great portion of the charge of Rs. 37,904. consists of the salaries of the State Engineer, Assistant Engineer and Mr. Adamson. These with the pay of one supervisor, one Head Draftsman and one Sub-overseer amount to Rs. 22,000 approximately.

As a large part of the State Engineer's time has been devoted to the Bari-Tantpur extension and the State Quarries against which no charge is made, while Mr. Adamson works on the D. B. Railway it would be fair to consider the charges for P. W. D. reduced by about Rs. 10,000 in which case the percentage falls to Rs. 15.65. A sum of Rs. 7,143 is taken up by Telephones, Boats, Guest House etc.

(i) Improvements to public offices.—

The expenditure was Rs. 8,073.

(vi) Repairs to Kesar Bagh buildings.—The Expenditure amounted to Rs. 4,954

(vii) Repairs to Omera Tank.—Expenditure was Rs. 2,452, the main works being the closing of breach of dam and addition of a sluice to it.

Statistics.—The following figures taken from the audited Revenue Accounts for the quarter ending 31st March 1913 are interesting.

The total train mileage for the quarter was 3,922 of which 1,222 was passenger and 2,700 was goods train mileage.

The average cost of running a train mile was Rs. 2·106.

The cost of carrying a passenger 1 mile was Rs. ·102.

The cost of carrying a ton of goods 1 mile was annas 1·123 and the average sum received for carrying it was annas 1·160.

The average number of passengers in a train at any one time was 329.

4,01,730 passengers and 81,740 tons of goods were carried one mile in the quarter.

80. **Bari Tantpur Extension.**—The capital expenditure to the end of the year was Rs. 3,67,996. The work has been stopped owing to want of funds this year.

81. **Quarries.**—The net profit of the year is Rs. 30,581 or Rs. 11,120 more than last year and Rs. 8770 more than the average profit of the last 5 years.

The introduction of the system of working the quarries directly under state Agency dispensing with the middlemen contractors has proved successful. The quarrymen cartmen and other labourers are now getting regular works and regular payments and they are now contented.

On the opening of the Bari Tantpur Extension down to Baseri for traffic a depôt has been opened at that place; this will save a good deal of carting of Tajpur slabs which are much in demand in foreign markets.

During the year stone has been supplied from Narpura for the All India King Edward Memorial at Delhi.
